

About CANVIZ

Canviz is your trusted business technology partner, specializing in creating solutions that leverage Microsoft's Azure and Office 365 platforms. Our industry recognized experts and a talented global work force deliver cost effective and measurable results. We pride ourselves on delivering cutting edge, cost effective solutions that improve a company's productivity and bottom line profit.

Canviz continues to grow every day thanks to the confidence our clients have in us. We cover many industries such as technology, manufacturing, health care, consumer products and public safety.

Our core values

Integrity

Our 50+ professionals help clients optimize their businesses, improve their operations and risk profile.

Long-Term Thinking

We are always thinking long term and how to save our client's money by maximizing return on investment while minimizing future costs.

Thought Leadership

Canviz's thought leadership is evident in our conference presentations, code samples, demos, blogs, and videos.

Privacy and Safety

Our processes and employee screening ensure your data is safe and secure.

Quality Services

Our robust processes and software development life-cycle ensure high quality deliver on all our projects.

Innovative Solutions

Our professionals see what others don't, challenge conventional thinking, and consistently deliver innovative solutions.
